Overview

Version 1.1.1 2026-6-15
LIPSedge™ DL/M3
Fix: • Fixed camera reconnect crash • Fixed image flickering in preset modes • Fixed FPS drop during Depth-IR synchronization • Fixed CameraParameterViewer crash
LIPSedge™ AE400 / AE450
Fix: • Fixed rs-depth-quality startup failure • Eliminated depth image flickering during image registration • Fixed serial number utility errors
LIPSedge™ AE430 / AE470
• Fixed rs-depth-quality startup failure • Fixed serial number utility errors • Resolved snowflake / green screen issue in multi-stream mode • Fixed preset configuration loading issue
LIPSedge™ L210
Fix: • Fixed FPS drop caused by frame synchronization • Restored missing CameraEventListener sample • Corrected pointer alignment issue in IR mode

Legacy

Version 1.1.0 2025-11-14

Supported Models:

- LIPSedge™ DL/M3
- LIPSedge™ AE400/450
- LIPSedge™ AE430/470
- LIPSedge™ L210u/215u
- LIPSedge™ S205p

New:

- SDK consolidation for enhanced multi-camera support
- Support IMU feature for LIPSedge™ AE400 / AE450
- Optimized the DLL packaging structure.

Version 1.0.2 2024-7-23

Supported Models:

- LIPSedge™ DL/M3
- LIPSedge™ AE400/450
- LIPSedge™ AE430/470
- LIPSedge™ L210u/215u
- LIPSedge™ S205p

New:

- Support for LIPSedge™ S205p camera.
- OpenNI 2.4.4.3 release with DepthViewer(or NiViewer) enhancements, features, and improved LIPSedge Samples

Version 1.01 2024-4-18

Supported Models:

- LIPSedge™ DL/M3
- LIPSedge™ AE400/450
- LIPSedge™ AE430/470
- LIPSedge™ L210u/215u

New:

- Release for Windows platform, tested on Win10.
- Release for Linux platform, tested on Ubuntu 18.04/20.04/22.04.
- Execute SDK .run file in your shell terminal to extract and install it.

Fixed:

- LIPSedge™ AE400/450 Linux SDK: fixed library linking problem on Ubuntu Linux.
- LIPSedge™ AE430/370 Linux SDK: fixed library linking problem on Ubuntu Linux.
